At Mariani Landscape we have been very pleased with the quality and large sizes of spruce at Green Acres. The digging and handling of material has met our expectations as well. Both Dennise and Horace have provided top notch service and professionalism through out.

Landscape Architecture
Contracting and Maintenance

To Whom It May Concern,

I am a purchaser for one of the largest Design Build Landscape companies in the Chicago area North Shore residents.

I have been in the buying arena for the last 15 years and have purchased materials from coast to coast and throughout the Midwest. The companies I have worked for have all demanded nothing but the best of the best. I had tried to get in the door at Green Acres several years ago but I was told they did not have the sizes I was looking for. Last year I was invited in and realized the reason I was told they did not have the plants I wanted. It was the fact that the trees were not ready and they would not sell until they were ready.

Let me end with this. Green Acres spaces their trees properly and Manages the Farms as well as to go the extra mile in that they have drip irrigation, fertilization and a spray program. They give excellent service and grow the best product on the market as far as Evergreens go.

Ron Minshew
